Summary Statement

As a recent graduate I am eager to enter the work force and help accomplish goals, small and large. As a student in university, I found a deep love for all that I studied, particularly data science and statistical analysis. I was able to find internships that aligned with my studies. In these internships and in my courses. During my time at university, I was published for my work in research in philosophy and economics.

Core Competencies

Data and Coding (Python and SQL)

- Gathering
 - Visualization
 - Modeling and Simulation
- ### Statistics (R Studio and Stata)
- Advanced Analysis Techniques

Information

- Microsoft and Google Suite
 - Research and Consolidation
- ### Other
- Economic Theory
 - Video Editing

Education | University of Mary Washington, *Magna Cum Laude*

Bachelor of Science | Economics
Minor in Data Science

Bachelor of Art | Philosophy with
Honors

Analytics, *Data 352* | Fall 2023

Cultivated a mastery for R studio and deepened my grasp of data visualization.

Advanced Econometrics, *Econ 462* | Spring 2024

Developed an understanding of Stata and complex statistical methods for understanding data.

Modeling and Simulation, *Data 420* | Spring 2024

Built a proficiency for python and established a framework for modeling and simulations

Data Analysis Experience: <https://github.com/Cullen-Kendrick/Data-Experience>

Experience

Intern | *All Together in Dignity: Dublin*, Dublin Ireland | Jun '23 - Aug '23

Event planning, organizing information, and facilitating cooperation.

Intern | *Pitch Holdings*, Fredericksburg Virginia | Feb '24 - May '24

Data gathering and synthesizing information to better help our business clients.

Server | *Outer Banks Brewing Station*, Kill Devil Hills North Carolina | May '24 – Current

Provided guests with a fast, efficient, and high-quality service.
